

QUALITY, HEALTH, SAFETY and ENVIRONMENT POLICY

MISSION & VISION

Our **Vision** is to contribute strongly to the spread of innovation as a way of improving quality of life.

Our **Mission** is to work together with our clients in supplying intralogistics solutions which:

- 1) Improve occupational health and safety.
- 2) Simplify the complexity of logistics processes and flows.
- 3) Optimise the efficient use of resources.
- 4) Constantly increase reliability and performance.

POLICY

System Logistics S.p.A. which operating in field of design, manufacturing, sale, installation and after-sales assistance of plants, machines and software for intra-logistics management, material handling, storage and manufactures automated guided vehicles, in demonstrating its **leadership**, has decided to use **an integrated QHSE system** that changes corporate targets into actual actions and that:

- ◆ Defines the **context** in which. operates, identifying the internal and external factors that play a major role for its activities in order to link them to the interested parties and identify specific action plans;
- ◆ Identify and minimises **risks** and seizes all **opportunities** connected with the creation of products and solutions based on the Customer's requirements and on the context, assuring that the project is followed efficiently and correctly in each of its phases;
- ◆ Applies and observes the corporate **values** discouraging with all means any behaviours that may lead to risks for the people, the community and the environment;
- ◆ Increases **awareness** and **competence** of internal and external stakeholders by means of a steady **training** process aimed at operating excellence;
- ◆ Plans and implements projects taking into account **environmental aspects and impacts** in order to safeguard the environment and prevent the pollution;
- ◆ Improves **prevention and protection** everywhere, in order to prevent near miss, accidents and occupational diseases;
- ◆ Comply with **applicable legal requirements** and respecting the commitments undertaken to protect health, safety at work and environmental protection;
- ◆ Supports the integrated management system and promotes the **continuous improvement** of its processes, products and services;
- ◆ **Monitoring** KPIs, verifies and **reviews** that the integrated system meets applicable regulations, is suitable and appropriate.

The principles of this policy have been
shared, published and communicated
to all the parties involved at System Logistics S.p.A.
